

DISTRICT ONE LEAGUE MEETS HERE

NEWS TO HAVE FIRST COOKING SCHOOL IN JUNE

MRS. LEONA RUSK IHRIG TO CONDUCT SCHOOL.

Lectures to be on Diet and Proper Eating As Well As Preparation of Foods.

Mrs. Leona Rusk Ihrig, nationally famous culinary expert, has been assigned to conduct the Canyon News' First Annual Cooking School in Canyon, on Tuesday, Wednesday, Thursday, and Friday afternoons, June 7 to 10.

The News is fortunate to have secured the service of this well known instructor to bring to the women of this region the latest developments in modern cooking and scientific facts of diet and food preparation.

Mrs. Ihrig is exceedingly well qualified to present these facts and principles. For nine years she has been engaged in conducting cooking schools in all parts of the country. She has been identified with several of the largest hotels of the Baker and the Moody Hotel systems. During 1931 she was managing steward of the Buccaneer Hotel in Galveston in complete charge of all the purchasing and service as well as being head of the culinary and dining room service.

Mrs. Ihrig's primary knowledge of cooking was derived from her mother, Mrs. James Rusk, one of the best cooks in Harrison County, Missouri. Mrs. Rusk was never too busy, or too tired to explain the intricacies of cooking to her daughter.

To this foundation of "Old-time" cooking, Mrs. Ihrig has added scientific knowledge gathered during her years as housewife and mother, and by actual research, after she entered the teaching field.

The principles of diet and proper eating, which Mrs. Ihrig will present in her daily lectures, are endorsed by leading physicians and dietitians of the country.

In former years cooking school instructors were content to give new recipes and a few new means of lightening housework. Mrs. Ihrig not only gives the manner of preparing food in attractive and tasty combinations, but also outlines the necessity of including certain elements in the diet and the foodstuffs which contain these elements.

Mrs. Ihrig is cook, bio-chemist, dietitian, and instructor.

Combined with this wealth of knowledge is a pleasant personality which has won for her a host of friends in every city in which she has conducted schools. Her schools are not formal courses of instruction, but a friendly "get-together" in her own kitchen. The privilege of asking a question at any time is granted to every member of the audience.

Mrs. Ihrig has been conducting cooking schools in Panhandle cities since March 21. From Dalhart to Midland, and from Hereford to Shamrock, the cooks of the Panhandle attest her ability as instructor and as cook.

Randall County Deputy Sheriff Arrests Bandit

Bob Barnett, Randall County deputy sheriff, early Friday morning apprehended Haskell Allard, an Amarillo youth who was later positively identified by Cecil Smallwood, service station attendant, as the man who late Wednesday night rifled the cash drawer of the Magnolia Petroleum company's station, Thirty-sixth Avenue and Harrison Street, Amarillo. Following the identification, Barnett filed a charge of robbery with fire arms against Allard, who was taken before W. C. Stevenson, justice of the peace in Randall county, and his bond fixed at \$5,000.

Barnett and Pres Burnam, Amarillo police captain, arrested Allard and two other youths Friday morning after a six block chase through the streets of Amarillo.

FOOTBALL GAME MATCHED WITH TECH MATADORS

GAME TO BE APRIL 30 UNDER BIG FLOOD LIGHTS OF BUFFALO FIELD.

When it was learned by Coach "Sam" Burton, athletic mentor of the college, that it would not be possible to arrange a date whereby the Thundering Herd could meet the fighting Matadors in a gridiron fray next fall, the big coach immediately began negotiations for a game this spring.

The big event will take place on Buffalo Field, Saturday night, April 30th, under the powerful floodlights. It is to begin at eight P. M. Only players who will be eligible for collegiate competition next fall will be used in the game.

The feature of the contest will be that the new rules as formulated to be used next fall will be used. Many football players over the Panhandle will have an opportunity to see the new rules in effect before they have to start using them. Some of the new rules have to do with the kick-off and with the use of the hands.

Admission may be gained to the fracas with a fifty cent piece or with a blanket tax and twenty-five cents.

Thieves Enter Elevator Office Second Time

Thieves entered the office of the Farmer's Elevator Company Monday night for the second time within the last few months and made off with a radio owned by J. H. Cox, Jr., manager. Nothing else of value was taken.

The door to the office had been broken open, apparently with a crow bar or some similar heavy instrument. The safe was also broken open but no money was taken as it is not the habit of Mr. Cox to leave any currency in the safe overnight.

Officers have as yet found no clue as to the identity of the marauders.

Rev. C. E. Jameson was called to Snyder last Wednesday to attend the funeral services of an old friend.

A list of 12 merchandise prizes, including 4 new Harmonicas, will be given to the winners of the Chamber of Commerce Harmonica contest to be held next Saturday, April 30, in addition to the opportunity of playing on one of the future radio programs of the Chamber of Commerce.

Indications are that a large list of entries will be in the contest making the competition keen and interest high.

There will be four groups or divisions in the contest, giving every entrant an opportunity to try for two prizes, as well as, making the contest interesting to all ages. It is open to boys, and girls, men and women.

Divisions of the contest are: Under 12 years; from 12 to 16 years and over; champion sweepstakes, all ages.

A partial list of prizes for the contest has been completed, including prizes from McCarty Bros. City Pharmacy, M. E. Moses Co., J. J. Walker Drug, Warwick Printing Co., and Jarrett Drug.

A complete list of awards and donors will be announced next week. All contestants must be entered by 10:30 a. m. on the morning of the 30th. Contestants will be required to play one number in each division in which they enter, unless in case of a tie, then two selections. Contestants may choose their own selections. No entry fees will be charged. To enter the championship sweepstakes division the contestant need not enter any other division.

To enter the contest, apply to the secretary of Chamber of Commerce or mail your entry to the Chamber of Commerce. It is urged that all who wish to enter do so as early as possible. The contest will begin at 1:30 p. m. in the band stand on the east side of the court house.

Besides the Harmonica playing, any entry will be accepted for any novelty act, regardless of the type of entertainment, but no prize is offered for anything except the Harmonica contest. However, the best of the novelty acts, according to the decision of the judges will be used in future Chamber of Commerce radio programs.

New City Dads Meet With Old Members Tuesday

In order to better acquaint the new city officials with the local problems confronting the municipal government, the former city commission met with that body at 7 o'clock Tuesday evening in a round table discussion at the City Hall.

This was also the first meeting of the new officials, Mayor C. R. Burrow and Commissioners, W. S. Amend and H. W. Crain whose pictures appear in this issue of The News.

The problem of economy in the finances of the city was the paramount problem before the meeting Tuesday and considerable time was spent in discussing ways and means of cutting expenses. No definite action was taken, however.

Former Mayor R. A. Bellah and former commissioner Grady Oldham met with the new officials as did City Secretary Harvey Cash. R. P. Jarrett, former city commissioner, was out of the city and unable to be present.

Amarillo Man Is Arrested By Randall Deputy

Following a 24-hour chase, Frank Neff of Amarillo was arrested in the north part of Amarillo early Saturday morning by Deputy Sheriff Bob Barnett and charged with the disposal of a mortgaged automobile in June of last year.

Neff's bond was placed at \$750 in Justice court here and he was returned to the Potter county jail in lieu of bond.

The automobile in question was sold to the Imperial Chevrolet Company here last June and the company, ignorant of the mortgage against it, later sold it to another person. The complaint was signed by Miss Hazel Wineinger in the court of Justice of the Peace B. A. Witherspoon.

Mr. and Mrs. Verna Greenfield of Post were guests in the parental J. W. Greenfield home this week. Mr. and Mrs. Greenfield also attended the Hardware convention in Amarillo.

Mrs. C. C. Donnell is sick at her home on Fifth Avenue.

Jersey Leads in Butter Fat So Far This Month

The high cow for butterfat production in the Randall County Dairy Herd Improvement Association, so far this month, is the pure bred Jersey cow, Gamboge King's Juanita, owned by the Terra Blanca Farms. This cow produced 77.3 pounds of butter fat during the month. This exceeds the high cow for March by about ten pounds of butterfat.

The J. W. Watson cow which was high cow for March with 67.5 pounds of fat came back in April with a production of 74 pounds.

The honor roll for April will show more cows than ever before according to tester C. B. Ray. This is being caused by an increased percentage of high cows in the different herds as well as an increase in the number of herds on test. The membership in the association was increased by about ten herds this month. Several of these are located in Potter county near Amarillo. A further increase is expected for May. A total of 23 herds are now active in the testing association with something like 600 cows on test. The honor roll for April will be published the first week in May.

State Game Officers Will Stock Canyons With Deer, Turkey

The Texas Game, Fish and Oyster Commission will place about two dozen deer in the Palo Duro canyon during the coming month, and will add turkey and other native game. This decision was reached Monday, when the Commission met in Amarillo, and a trip was made to the Palo Duro, called by all members of the party the natural home for the deer, and one of the greatest scenic spots they had found in Texas.

A chuck-wagon dinner was given Monday evening near the Light-house, with the following Canyon citizens invited to join the members of the Commission and a few Amarillo men: Clyde W. Warwick, Wallace R. Clark, Travis Shaw, Ray V. Davis and James B. Elliston. A visit was first made by the party to the Palo Duro park.

Members of the Commission attending the session were: Sen. A. E. Wood, of Austin, chairman; J. H. Bibb, of Marshall; Murrell L. Buckner of Dallas; Gus H. Schreiner of Kerrville; Gene Howe, of Amarillo. Executive Secretary W. J. Tucker and his assistant, Beal Jester, of Austin, and Miss Helen Walker, secretary to the commission, also attended.

A delegation from Claude attended the meeting in the interest of the Goodnight buffalo herd. It was found impossible for the state to buy the herd, owing to the lack of money, and that no land had been bought by the Panhandle citizens for the herd.

A fish hatchery for this section will be provided as soon as funds are available.

Mrs. G. R. Reid returned Monday from a two weeks visit in Childress, Quanah, Chillicothe and Vernon.

Mr. and Mrs. Bill McCarty of Big Spring spent the week end in the home of his mother, Mrs. Annie V. McCarty.

It is stated that Col. Lindbergh will seek to organize the citizens of America for a determined fight against the crime wave. Lindbergh has paid a heavy toll to the underworld element, contributing not only his son, but money which is said to amount to probably \$200,000.00. No one is in better condition to feel the need at this time of a determined fight against the organized forces of evil than Col. Lindbergh. Counterbalancing all of the good there is in America, this country has more crime than any nation of the earth. Criminals are safer in America than any nation on the face of the globe. There is less chance of being caught, and less chance for conviction, if caught, in America than in any nation in the world. It is a tragedy to think that in a great country like ours that organized crime is so strong that it can defy every law of man and escape punishment. To suppress this crime wave, it will take the organized powers of the forces of righteousness—the assistance of every law abiding citizen.

It is said that Texas is considered to be in about the best condition of any state in the union. There are no exceedingly bad spots in the state, and during the depression there have always been some white spots. The diversified interests of the state has been able to keep the state in a fairly balanced condition. Those who have been in the east, which is largely manufacturing, report that gloom is so thick it may be cut with a knife. The same is true with every section which has only one product, whether it be a farm staple or a manufacturing product. Putting your eggs in one basket and then carefully watching the basket, is the slogan of success for the individual, but when an entire state or entire section of a state does this, and the basket happens to upset, great is the downfall. There never was a time when diversification showed up in better light than the present.

The word "politician" will be heard more during the coming three months than it has been heard for two years. Wonder if those who use the word realize that to apply it to a candidate for office is paying said candidate a great compliment. Politics is the science of government. Therefore, a politician is a student of the science of government. A good politician may therefore be described as a good student of governmental problems, and the world was never before so much in need of men and women who are able to study the problems of state and come to some definite decision as to the cause of our present predicament, and reach a sane conclusion as to the remedy. When you use the word "politician" it is a compliment, rather than derision, as it is usually meant to be.

The depression has had one good effect. It is causing people to read more good books. Libraries over the nation report a large increase in the withdrawal of good books, especially books on economics, government and kindred subjects. People are reading to learn and better understand how to take care of themselves, we are told. Book stores state that increased sales are being made of the better class of books, since prices have been so greatly reduced. People are not wasting their money so freely as they did a few months ago, because they do not have the money to waste. They are investing their time and money in substantial things, and good books are being realized as a good investment.

Death of S. M. N. Marrs, state superintendent of public instruction, removes another well known school man from the political arena of Texas. For ten years Marrs held his office against bitter opposition at times, but always with a supremacy which showed the confidence of the people in his administration. The schools of Texas have prospered under his administration. Perhaps through his misguided efforts in increasing the state apportionment faster than the state had the money, he did the schools an injustice. But he will receive the credit for the improvements made by the provision of these extra funds.

The passing of Dr. R. B. Cousins and Dr. P. H. Horn removes two of the greatest educators Texas has produced. It leaves two colleges in the state without the guiding geni who were responsible for their success up to the present time. Both were the first presidents of the two institutions. Texas has been fortunate that there lived two men, so great in spirit, so keen of intellect, so wonderful

of heart beat for the cause of the youth of Texas. It is an inspiration to those of us who remain to do a little better, to work a little harder for the future development of Texas.

The State Game, Fish and Oyster Commission is going to do its part toward making a great game preserve in the Palo Duro Canyon. The results of the commission's efforts lies primarily with the people of this section. The land owners are willing to co-operate in protecting the game which is placed here. But it remains for the citizens in general to say whether or not hunters who would destroy for their own pleasure will be barred from killing this game before it gets a start. Every citizen has a distinct part in protecting this game.

People who talk about getting back to normal usually think of the year 1929 as the normal year to which they would like to return. As a matter of fact 1929 was the most abnormal year this country as a whole has experienced. It was abnormally prosperous, and to consider getting back to that basis is all foolishness. Of course it is hard on all of us to think that the things we bought, or contracted to buy during this prosperous period, have really depreciated to such a great extent, but nevertheless the facts had as well be faced now as at some future date.

Gus Schreiner of Keerville, a member of the State Game, Fish and Oyster Commission, lives in the Hills Country of Texas which is noted for its wonderful scenery. It was pleasing to hear him marvel as he looked into the Palo Duro Canyon and pronounce it one of the most scenic spots of Texas, and a spot of beauty which should by all means be preserved. All who see the Palo Duro are impressed with its wonders and realize that it should be a great state park.

The people of Randall county the highly interested in the building of the museum for the Panhandle-Plains Historical Society. It must be built this year, or the \$25,000 pledged by the state will be lost. It is up to every citizen to do his part toward the project, no matter how large or how small his contribution may be. The building must be completed by the first of September, as the state appropriation is available only up to that time.

The News is promoting a Cooking School for Canyon starting June 7th. It will be the first time that a general cooking school has been held in this city, and will be an occasion which will be of great importance to every woman of the county. From week to week information will be given about the school. Every woman should make her plans to attend the Cooking School.

The employees of the College have the honor of being the first group on the campus of W. T. to donate 100 percent strong to the building fund of the Panhandle-Plains Historical Society Museum.

Finding that Mr. L. F. A list of these donors will become a part of the permanent records of the college and of the Historical Society.

Mrs. G. G. Foster assisted by Mrs. R. E. Foster entertained the Methodist Missionary Society Tuesday afternoon, April 19, at 3 o'clock in the G. G. Foster cabin at the Canyon Country Club. The cabin was made cheerful by bouquets of tulips which seemed to assist the hostesses in welcoming the forty guests who had taken advantage of the trip to the country.

Mrs. M. N. Witt had charge of the Voice program. The theme was "The Joy of Jesus." The scripture lesson, Matthew 9:10-15, which was given by Mrs. Witt, was followed by the song "Joy to the World." At the close of the song, silent prayer followed, and was closed by Mrs. Witt.

The topics, "Moving pictures and Lawlessness," were given by Mrs. S. B. Louder, Mrs. C. M. Dowlen, and Mrs. I. C. Jenkins. The hymn "Fair Lord Jesus" was read by Mrs. E. F. Page.

Indian Speaker Thrills Audience Wednesday Night

Sketching rapidly and clearly the conditions under which India has lived during 150 years of British rule, giving both advantages and misfortunes of the regime, Jehan Warliker, delighted his large audience at the College Auditorium last night.

Mr. Warliker is a native of India, but he was reared and educated in England and it was not until he returned to India at the age of twenty-one to take his place in the royal household of which he is a member, that he learned of the actual conditions which exist in India, with its population of 320 million people.

India has been exploited for 150 years, Mr. Warliker said, and has become annually poorer during the entire time. India now wants dominion status in the British association of nations and opportunity to spend the taxes paid by her people to rehabilitate and develop her own land, instead of having the money leave India never to return.

Gandhi is the recognized leader of this movement which according to last night's speaker is even more a religious than a political movement. Even those who oppose him most appreciate that Gandhi is the greatest humanitarian leader the world has had in hundreds of years, and under the impetus of his spirit the Indian people are sure to gain a greater degree of freedom than they now possess within the next two or three years, if Mr. Warliker sees conditions correctly.

Mr. Warliker speaks immaculate English, and his audience greatly enjoyed his keen humor.

Jeff Strickland of San Antonio and his cousin, Mrs. Clint Small of Amarillo visited here yesterday at the Warwick home. Mr. Strickland is general attorney for the Publix-Paramount Theatres and is in Amarillo for the opening of the new theatre tonight.

L. N. George Says—

In the northeast corner of the Administration Building of the College there is a stone containing every name and the amount each person gave to the old Normal College Building. A duplicate of this is also filed in a safe place. Some of those donors have passed on to another field of service, others have lost practically everything that they once had in the form of earthly possessions. But knowing most of these people as I do, I am inclined to believe that to a man they are proud of the fact that they had a part in the building of this institution. These educational pioneers have children who, by this time, have many children.

These children and grand children should every one have a chance to help promulgate this great work which their parents and grand parents have started. Other folks have moved into our midst. They have reaped benefits from the good work of these pioneers. They should likewise be given a chance to keep this good work going and show their appreciation of it. Then why not make some arrangement by which they can. Well, the arrangement is made and we need more people to boost the idea. We are especially appealing to every W. T. ex-student in Randall county to help put this over. The time is short, hence every one who is interested must consider it his personal business to boost this drive for funds for building our museum.

Two or three families are locating in our midst each week. I know of ninety which are now planning to be in Canyon by the sixth of June. It is one thing to get them here, but it is another thing to keep them coming back. Just how much are you interested in this cause, anyhow? Plenty of people are phoning in and wanting to rent rooms and keep boarders but how many are cleaning up their premises, repapering and repainting so these people will keep returning for further work. There will be an ex-student banquet at Canadian, April 27, and another at Dalhart around the middle of May and the Home Coming banquet at Canyon the first of June. Every W. T. ex-student in this part of the State should be at least one of these gatherings.

Home Rooms

James Kennedy, a student of W. T., whose home is in Olton, spoke to the Junior home rooms Wednesday on the development of the Du Pont paint experiment at the College Farm.

The purpose of the company's installation is to test their paint in this locality.

"This climate is very hard on paint," stated Mr. Kennedy.

There are now approximately eight hundred feet of racks resting at an angle of 45 degrees, placed about 12 feet apart. They are spaced at this distance in order that the shadow of one will not protect another so that all of the material will be equally exposed.

Various kinds of wood, qualities of paints and colors are displayed. Each month Mr. Kennedy, who has been chosen from the Chemistry Department to handle the experiment for the first year, makes tests of the material on hand.

The tests are of the wood, as well as the paint. Accurate records are kept as to the condition of the products at different times.

"The success of one's paint," states Mr. Kennedy, "depends greatly upon the kind of wood on which it is placed."

This is the third largest experiment of this company in the United States.

The company is also testing paints at Borger, over which Mr. Kennedy has charge.

The Sophomore Home Room, sponsored by Miss Murrell, had a delightful Gypsy Tea, Thursday afternoon. The people, leaving the high school building at 4:30, rode to the South Creek in cars.

They toasted marshmallows, ate sandwiches, and fruit, and drank lemonade. Very interesting games followed the feast.

Although only twelve were present every one took part in the games.

Home Room C met Wednesday. Their sponsor, Mr. Fox, was not able to be present due to illness.

Coach Brady took charge.

Coach Brady gave an interesting account of a trip he had taken two years ago.

An interesting debate was given as the last program. The question as stated was: Resolved, That we should not have detention in Canyon schools.

The people who debated were: Affirmative, Mary Ella Lowe and Forest Hill; negative, J. T. Mc-

Canyon Eagles Do Well On Amarillo Track

The Amarillo College Invitation Track meet had four Eagles in the competition. Considering the wonderful field they competed against, the Eagles did well.

Willard Middleton placed fourth in the 880 yard run and won the only point for Canyon.

Austin Cone, running against some of the best competition in the state, won fifth place in the mile run.

R. L. Burnam did much better than was expected, high-jumping 5 feet, 8 inches; 10 inches higher than he had done in practice.

DRAMATIC CLUB

The Dramatic Club was entertained by the Grade School declamers at the activity period Monday.

Those who recited were: Vernell Hancock, Margaret Stewart, Mary McCaslin, Muriel Perkle, Laura Mae Slaughter, Rena Mae Marshall.

The judges gave Vernell Hancock, first place, Muriel Perkle second, and Mary McCaslin third. Following the judge's decision, Rosa Cash, our High School declaimer, gave her declamation.

Donald and Wade Johnson.

Two very interesting discussions of vocations have been given in Mrs. Brady's Home Room.

Ruth Burtz gave an interesting talk on the vocation which she has chosen, that of teaching. She brought out many good points on what it took to be a good teacher, and the preparation one must make to become such.

Clarence Wooten chose as his vocation the position of an exhibitor. He told how an exhibitor must act toward the public in order to become a successful one.

Mr. Wooten told of the training it takes to become an exhibitor, and also told of the possibilities of such a profession.

Chapel

The chapel program Thursday was in charge of Lawrence Clark, Coy Palmer and Wendolyn Black of W. T. S. T. C.

These young men sang some popular tunes and were accompanied by Miss Black at the piano. The following are the songs that were sung by the students: "Somebody Loves Me," "You Try Somebody Else," "I'm Alone Because I Love You," "Snuggle on Your Shoulder," "Lazy River," "Little Old Church in the Valley," "When the Blue of the Night Meets the Gold of the Day," and "We Men Must Grow a Mustache."

This program was enjoyed by everyone and we are hoping that these talented young people will visit us again.

"Whoofenpoof" Is Well Done By Senior Cast

The senior play, "Whoofenpoof," was well presented and well received at the high school auditorium Friday night.

The actors kept their audience in almost continual laughter during the entire performance.

All of the characters were well placed, showing that they had spent much time in the preparation of the play.

The proceeds go to the senior class for the buying of a gift for the school.

HONOR ROLL DELAYED.

Due to an incomplete list of grades and the absence of Mr. Fox, the six weeks' honor roll list for the high school will not appear in this issue of the Eagle's Tale. It will probably be in next week's edition.

TEXACO FIRE-CHIEF GASOLINE

Developed for Fire Engines
Yours at no extra price

The U. S. Government specifies for its emergency use
"... a grade of motor fuel which is suitable for
ambulances, fire-engines, emergency vehicles,—"

(Excerpt from Federal pamphlet VV-M-571, July 21, 1931)

The Texas Company produced it for your every-day use

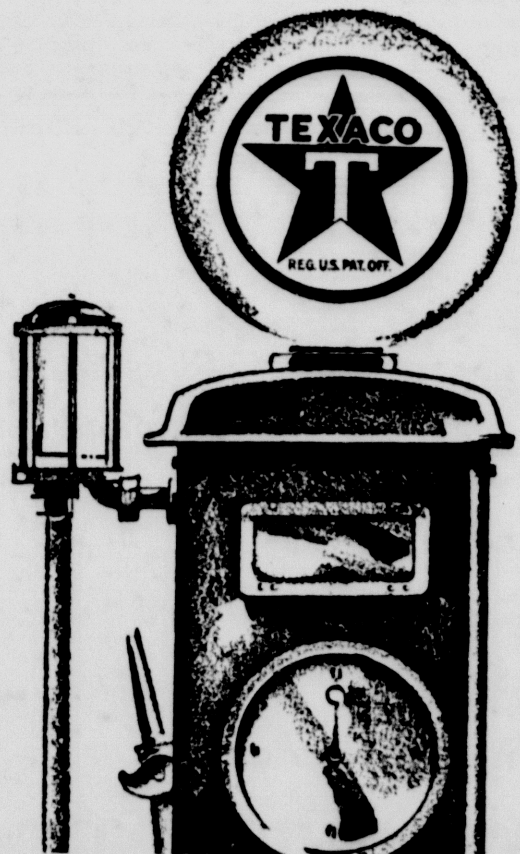

— a vastly superior motor fuel with every quality which makes for finer carburetion and instant power. Authorities said that the gasoline specified by the Government could not be produced for general consumption at any reasonable price until—

An advanced process, developed and perfected by The Texas Company, made possible the production of this "ideal" gasoline on a commercial scale and made it practical to offer it to you at no extra price.

That gasoline is the new Texaco Fire-Chief. It surpasses the highest U. S. Government specifications for "emergency" fuel. It is an anti-knock gasoline with an octane rating that is outstanding—it's alive with snap, dash, action—brimming over with eager power.

Confirm this good news for yourself—today! One tankful of this sensational new gasoline will demonstrate power that is power. At 60,000 dealers in all our 48 States.

Margaret Camp, '30, Gets Article in April 'Outlook'

Margaret Camp, a graduate of '30 who is now teaching in Texline, is the author of an article, "Bridging the Gap", which appears in the April issue of the "Texas Outlook." In this article Miss Camp explains "the methods successfully employed in Texline High School to bridge the gap between a small, disreputable, abused school library and a faculty utterly untrained in library management and organization."

The material with which to work consisted of an encyclopedia thirty years old, dozens of old novels, old text books and a few battered remains of volumes mentioned on the state reading list.

The first step taken to improve this situation was to call for volunteers for librarians from the English department. Forty people answered the call, 28 of whom were selected as regular librarians. These 28 people immediately set in repairing books, and in a short time over 100 too ragged for use were mended and placed on the shelves at an expense of approximately five cents per volume. The books were carded and numbered according to the Dewey decimal system. Each librarian made a weekly report of progress with suggestions for future improvement. To encourage the students' interest in the project activity emblems were given for adding needed equipment.

In a short while the attitude of the student body toward the care of books had improved to such an extent that the school borrowed books from the Dallam County Free Library. At the end of two months, the librarians were rewarded for their diligence by a week-end trip to W. T. However, Miss Camp says that the greatest reward in such a project is learning how to make little opportunities grow into grand realities and the mastering of a new work.

W. T. Faculty to Aid in Raising Museum Money

A committee from the faculty of the West Texas State Teachers College will assist the building committee of the Panhandle-Plains Historical Society to finish raising \$25,000 to match the same amount appropriated by the Texas Legislature for the erection of the first unit of a museum building.

T. D. Hobart of Pampa, president of the Historical Society says that the money must be raised by July first, in order to have the contract let for the building before the thirty-first of August, or the Panhandle will lose its opportunity to have a real museum.

Reading the college committee is R. A. Terrill, who has had much experience in raising funds. Associated with him are Field Secretary L. F. Sheffy who will spend much of his time soliciting funds over the Panhandle; J. S. Humphreys, Miss Jennie C. Ritchie, Mrs. Tommie Montfort, Mrs. T. V. Reeves, with Dr. J. A. Hill as an adviser to the committee. This committee will work with the building committee which is headed by Judge H. E. Hoover, Canadian. Other members are W. H. Patrick, Clarendon, Horace Russell, Mrs. Olive K. Dixon, Amarillo; T. D. Hobart, Pampa; Col. R. P. Smythe, Plainview.

In appointing a committee to assist the Historical Society, Dr. J. A. Hill said, "This museum will be something of which every citizen in the Panhandle will be proud and in which every community will have an interest. Already hundreds of school children are using the museum materials which are here; in years to come, if this museum is built, every school child and every college student of the Panhandle will understand and appreciate history better for seeing the things contained in the Panhandle Plains Historical Society Museum."

Three hundred and fifty persons, two-thirds of them public school children have visited the museum since April 1. They came in groups from five different counties.

Fire, which is thought to have caught from a gas heater, did considerable damage Thursday morning to a house owned by Mrs. Lena Platt and located southwest of the Buffalo Stadium.
